

Frequently Asked Questions:

Q: Do you just drop-off the photo booth at the event?

A: Besides the timely delivery and removal of the photo booth, we also provide an on-site host to attend to the photo booth and your guests during the event to make sure it's running smoothly the entire time.

Q: Does the photo booth print out photos on the spot like the ones at the mall?

A: Same idea, only these photos are much higher quality and they print out much faster — in just 12 seconds! Our photo booths also have a unique classic design that is very stylish — retro hip, vintage mod!

Q: Will the photos fade or change color afterwards like many Polaroids, instant photo novelties, or those other digital photo booths?

A: Believe it or not, the photos from our photo booths are professional studio quality prints. It's the same high-quality printing process used by professional photographers, graphic designers and publishers. They will not fade and can last up to 100 years. There's a clear protective coating on top that makes them resistant to fingerprints, smudges, and even drops of liquid.

Q: Are there any chemicals?

A: Definitely not. Being digital, the photo booth has no yucky chemicals and it's ink-free. This means your event space will not have a chemical smell, unlike with the old photo booths. As a result, the photos also don't need any drying time. They're completely dry when they come out, so there's no need to waive them in the air like other instant photos (except to show them off, of course ;-).

Q: How long does it take for the photos to print?

A: Photos drop into the slot in just twelve seconds.

Q: What is the standard number of hours for renting the photo booth?

A: The starting point is four hours. At most events, the photo booth goes pretty continuously for four to six hours and sometimes longer. At weddings, it typically starts with the cocktail hour and goes to the end of the reception. Any hours above four can be booked for a modest fee. We can also arrange full-day, multi-day and multi-photo booth event rentals.

Q: Can guests use the photo booth as often as they like during the event?

A: Yes, it's free and unlimited for the duration. It doesn't matter how many guests you have.

Q: What if I want more than one copy of the same photo? Can I get copies of ALL the photos from my event?

A: While we can't print duplicates at the event, you will get all the photo booth photos from the event saved on a CD. This includes the high resolution files for all the individual poses as well as the six-pose printed files. With this disk, you can make reprints, enlargements or be as creative as you like on your own afterwards. Each priceless pose can even be enlarged up to an 11x17" print!

Q: Is the photo booth easy to use?

A: Yes, it's simple. Just touch the big red 'Start' button on the touch-screen. Then choose Black & White or Color. A voice instruction and on-screen countdown will lead you through six photos taken several seconds apart. Your photo drops into the slot on the outside of the photo booth just twelve seconds later!

Q: What size are the photos printed by the photo booth?

A: The print dimensions are a standard 4x6" size (so they can be framed) with a strip of three poses down each side (6 poses per print). There's a white space down the center that can be personalized for your event. The individual poses are the exact same size as the classic old-time photo booths. The distinctive strips can either be cut off or the print can be left intact.

Q: Does each person get to decide whether they'd like Black & White or Color?

A: Yes, guests get to choose Black & White or Color when they go in the photo booth. By request, the photo booth can also be set for one or the other for an entire event (this can also save a few seconds per session as guests don't need to make up their minds about which to choose).

Q: What is the custom photo scrapbook/guestbook and how does it work?

A: We provide a high quality scrapbook. Our photo booth host will have a table set up with writing and cutting implements. He/she will assist your guests, as needed, with posting one or more photos onto the scrapbook pages. Your guests can then inscribe a personal message to you alongside their photo(s). It's great casual fun and will be both humorous and heartwarming to look back on years later. Many people prefer this over the traditional "inventory of names" guestbook.

Q: How does the photo booth provide favors for guests?

A: The photos are personalized down the center with event information (logos, monogram, or a custom graphic to suit the events' theme or color scheme, etc). This is provided at no additional charge. Photo booth photos have lasting value as your guests will actually want to keep and display them for a long time. Photo booth photos are timeless! Your guests will especially appreciate gifts that they can use and treasure — with the photo booth, they will be creating the favors themselves, as many as they like, and have loads of fun doing it together! There is tremendous appeal to the idea that your guests will enjoy the favor long after the event has passed.

Q: What are the dimensions of the photo booth?

A: Width = 2'5", Length = 4'9", Height = 6'2", Weight = 750 lbs

Q: What if my event is on the third floor of a building? Can the photo booth fit in a passenger elevator?

A: It can usually fit in a standard elevator. Otherwise, guests *will* seek out the photo booth location once the "buzz" gets started and the photos start circulating around the room.

Q: Can you accommodate outdoor events?

A: Yes. As long as there's proximity to an electrical outlet and smooth access for transporting the photo booth into place there shouldn't be a problem.

Q: What about power? Is any special kind of hookup necessary?

A: No. A standard 120v electrical outlet is all that's needed, preferably within 20 feet.

Q: What is needed to book the photo booth?

A: A 50% non-refundable deposit and a signed contract.
